*Hey, little turkeys!
Buckle up this
Thanksgiving.*

4 STEPS FOR KIDS

INFANT

TODDLER

BOOSTER

SAFETY BELT

If they're under 4'9", they need a booster seat.

www.boosterseat.gov

For maximum child passenger safety, parents, grandparents and caregivers should always remember and follow The 4 Steps for Kids:

Use rear-facing infant seats in the back seat from birth to at least one year of age and until they weigh at least 20 pounds;

Use forward-facing toddler seats in the back seat from age one and 20 pounds to about age four and 40 pounds;

Use booster seats in the back seat from about age four and 40 pounds to at least age eight, unless the child is 4 ft. 9 inches tall.

Use regular safety belts at age eight and older and when taller than 4 ft 9 inches. ALL children age 12 or younger should ride in the back seat.
